

TRUE VINE MISSION

Every Nonspeaking Student Is Fully Capable

A faith-based school built for nonspeaking and minimally speaking students, presuming competence, restoring dignity, and unlocking the voice every child was created with.

Celina, TX • 501(c)(3) Nonprofit • Est. 2026 • Opening February 2027

OUR FOUNDING STORY

*Unlocking
the voices
God
gave
every
child.*

“Abide in me, and I in you.”

— John 15:4

Why Three Mothers Built This School?

- Founded by three mothers whose sons communicate through **The Spellers Method**, spelling out words, letter by letter, on a letter board.
- Each watched her own son go from being assumed incapable to expressing complex, capable thoughts once given the right access point.
- That experience became a shared conviction: every nonspeaking and minimally speaking student deserves to be presumed competent from day one, not after they've proven it.
- **True Vine Mission** exists to build a school, and eventually a permanent campus, around that conviction — born from firsthand experience, not theory.

MEET THE FOUNDERS

We Are Three Moms

Three mothers, three sons who communicate through the Spellers Method, spelling out words, letter by letter, on a letter board. Each of us watched our own son go from being assumed incapable to expressing complex, capable thoughts once given the right access point. That experience became True Vine Mission.

THE NEED A Silent Crisis in Our Own Community

Across North Texas and the country, thousands of brilliant nonspeaking students are being overlooked not because they lack intelligence, but because their motor challenges hide it.

Most nonverbal people are never presumed competent in the first place, they are assumed incapable before they're ever given the chance to show otherwise. That's the assumption we exist to overturn.

Marginalized Academically

Thousands of brilliant nonspeaking students are trapped in repetitive "life-skills" tracks despite high cognitive potential with no path to grade-level instruction.

Systemically Overlooked

Students are denied grade-level science, history, and literature because of motor challenges, not intellect, a gap that widens every year they're left in the wrong track.

Silenced by Assumption

A lack of speech is mistaken for a lack of thought, so families and communities never get to meet the capable mind underneath.

Purpose, Mission & Vision

A PLACE BUILT FOR PURPOSE

Purpose	Mission	Vision
• Create a faith-based learning environment where spellers are educated with dignity and trust • Protect students from deficit-based assumptions by presuming God-given competence • Build a world intentionally designed for how these students learn, communicate, and thrive	• Deliver one-to-one, individualized education rooted in Scripture and presumed competence • Offer intellectually rigorous, age-appropriate learning without performance or testing demands • Support the whole child: mind, body, and spirit through integrated education and therapy	• A future where spellers are fully recognized as intelligent, capable, and created with purpose • A learning community free from conditioned limitations and pre-conceived notions of ability • Students and families experiencing belonging, confidence, and the abundant life promised in Scripture

WHAT GUIDES US

Our Core Values

Faith & Truth

A Bible-based foundation honoring every child as created by God.

Presumed Competence

Intelligence is assumed, trusted, and respected, the starting point, not a reward.

Human Dignity & Partnership

Relational consistency and family collaboration guide everything we do.

“I have come that they may have life, and have it to the full.” — John 10:10

What is the Spellers Method and why we use it?

The Spellers Method uses three components: Communication partner coaching, Vision and Ocular-Motor, and Intentional Movement to build an individualized roadmap toward fluent communication for each student. That roadmap starts from a student's very first spelling session and moves toward whatever goal they define for themselves. For some students, that goal is open, flexible communication using a stencil. For others, it's full independence: typing on their own, without a trained partner holding or stabilizing the keyboard.

Communication Partner Coaching

A skilled communication partner makes the difference — not just in helping a student learn to spell, but in helping that communication carry into everyday life, far beyond the walls of a clinic or therapy room.

Vision and Ocular-Motor

Vision shapes nearly everything we do — it's how we take in the world around us. We depend on this system to communicate, navigate our surroundings, and build a clear sense of how our body relates to the space it's in. When that visual system isn't working the way it should, the effects can ripple into nearly every part of daily life.

Intentional Movement

Motor planning depends on a strong internal sense of the body, knowing where it is in space and moving through that space with confidence. This body awareness doesn't happen on its own; it's built over time as movement feeds sensory input back to the brain, gradually shaping that internal map.

“Abide in me, and I in you.” — John 15:4 | Unlocking the voices God gave every child.

The background image shows a modern, two-story building with a prominent wooden gable and large windows. The text "TRUE VINE MISSION ACADEMY" is visible on the building's facade. Several cars are parked in the foreground, and a few people are walking near the entrance. The sky is blue with some clouds.

Whole-Child Therapies & Campus Features

**A comprehensive approach to development,
regulation, and growth**

Aquatic Therapy

- Supports sensory regulation through the calming properties of water
- Improves strength, balance, and coordination with low-impact movement
- Enhances motor planning and body awareness
- Reduces stress on joints, making movement easier and more comfortable

Music Therapy

- Encourages communication through rhythm, melody, and shared musical experiences
- Supports emotional regulation and reduces anxiety
- Improves attention, memory, and cognitive engagement
- Develops motor coordination through movement and instrument play
- Enhances social interaction through collaborative music activities

Ocular Therapy

- **Strengthens the eye-hand coordination needed to point accurately and consistently on a letter board or keyboard**
- **Reduces visual fatigue and strain, making longer periods of focused work more comfortable and sustainable**
- **Builds convergence and tracking skills so students can follow lines of text smoothly instead of losing their place**

Art Therapy

- **Develops fine motor skills and hand-eye coordination**
- **Supports emotional regulation in a calm, engaging environment**
- **Builds confidence by celebrating creativity and personal achievement**
- **Enhances focus, attention, and task completion**
- **Promotes problem-solving and flexible thinking**
- **Provides sensory-rich experiences tailored to individual needs**

Life Skills Training

- Two purpose-built learning spaces: a high-end kitchen and fully equipped laundry facility
- Hands-on, real-world instruction focused on practical daily living skills
- Teaches practical daily living skills for home, school, and community
- Develops communication for real-world situations and self-advocacy
- Promotes problem-solving and decision-making skills

Motor Coaching

- **Motor development is essential for students with full-body apraxia**
- **Engaging, structured environments support motor planning and physical growth**
- **Fully equipped gym promotes core strength, balance, and gross motor skill development**
- **Therapeutic principles integrated into fun, motivating activities**

Agriculture Therapy

- Encourages confidence and independence
- Builds responsibility through animal care and gardening
- Supports sensory regulation in a natural environment
- Improves balance, coordination, and motor skills

Sensory Rooms

- **Intentionally designed low-stress learning environment supporting sensory and emotional regulation**
- **Four dedicated sensory regulation rooms available for structured sensory breaks or periods of dysregulation**
- **Spaces feature dim, adjustable lighting and carefully selected therapeutic equipment**
- **Supports nervous system regulation, self-calming, and readiness to learn**
- **Used as both proactive and responsive support throughout the school day**

What Changes When a Voice Is Unlocked

A photograph of two young girls with long brown hair, one wearing glasses, smiling and hugging each other outdoors in a grassy area with trees in the background.

Restoring Dignity

Giving a voice to students who were assumed to have nothing to say, replacing decades of low expectations with true recognition.

A photograph of two young men indoors. One is wearing a striped shirt and the other a white t-shirt and glasses, they are engaged in a conversation.

Transforming Families

When a nonspeaking child can finally communicate, it changes how parents parent, how siblings relate, and how the whole community sees that child.

A photograph of a man in a light-colored blazer and a young man in a striped shirt sitting at a desk, looking at something together. A chalkboard is visible in the background.

Pioneering a Model

A replicable, faith-based blueprint for special education in North Texas, one school's impact multiplied across every family and community it touches.

OUR PATH FORWARD

Phased Growth: From Pilot to Flagship Campus

Now: Pilot Launch

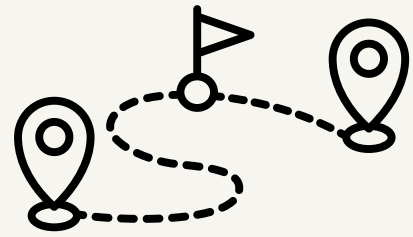

- Opening February 2027 at Cornerstone Ranch in North Dallas
- Small classes with 1:1 support
- Proves the model: presumed competence, grade-level academics, and whole-child therapeutic care in one setting
- Lays the groundwork for a permanent, purpose-built campus
- A 14-acre, nature-integrated campus in North Texas, designed specifically for our students' sensory and academic needs

Long-Term: Flagship Campus

- Phase 1 – Grades 6–12 Launch: chapel, classrooms, library, gym, pool, and sensory/medical spaces
- Phase 2 – Beyond Grade 12: a college program furthering our students' education, alongside the Ranch/Equine/Agriculture program
- Funded through a multi-source mix: bonds, grants, private donations, and financing
- Monday to Friday

Get Involved

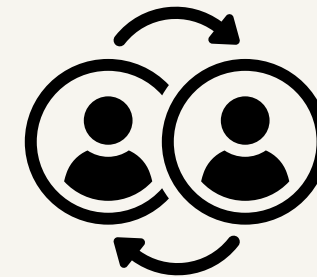

Follow Our Journey

Stay updated as we build toward our February 2027 launch.

Spread the Word

Share our story with families and communities who need to hear it.

Connect With Us

Reach out if you'd like to learn more or talk with our founders.

Pray for Us

We covet prayer as we build this ministry from the ground up.

“Abide in me, and I in you.” — John 15:4 / Unlocking the voices God gave every child.

Your Gift-Their Voice

When you give to **True Vine**,

- ✓ You're not just writing a check,
- ✓ You're opening a door.
- ✓ You're giving a student their first real conversation.
- ✓ You're giving a family the chance to finally hear what their child has always had to say.
- ✓ You're helping build a community where nonspeaking voices are expected, not overlooked.
